HEALTH RECOMMENDATION: During certain physiological and pathological conditions including stress, the body's need for micro- and macro-nutrients may not be met by diet alone. Becosules Performance helps to bridge the gap between the body's requirement and the dietary intake. The ingredients of Becosules Performance may have a role in improvement of general weakness and fatigue resulting from oxidative stress on body, decreased immunity or imbalance in stress hormones. Recommended Usage: One capsule daily NOT RECOMMENDED IF: Allergy (hypersensitivity) to any ingredients of Becosules Performance. ADDITIONAL INFORMATION: Excessive intake of vitamins A and D can lead to hypervitaminosis A and D respectively. Caution should be exercised when supplements containing vitamin K are administered in individuals on anti-coagulant therapy like warfarin and other coumarin derivatives, as vitamin K could make warfarin less effective. In such situations, the consumer should take the guidance of their treating physician. Riboflavin in Becosules Performance may color the urine yellow. Iron in Becosules Performance may give black coloration to faeces. Consult your doctor in case you are pregnant, lactating or taking any other medicine. Food supplements are not known to impair the ability to drive or use machinery. The active ingredients in Becosules Performance are all nutrients normally available in the diet. There is very little observed and documented evidence of undesirable effects with these ingredients (except iron) in the quantity recommended for the product. LPD version: LPDBPE062023
